The Art, Science, and Craft of Great Landscape Photography

By Glenn Randall

Rocky Nook. Paperback. Book Condition: new. BRAND NEW, The Art, Science, and Craft of Great Landscape Photography, Glenn Randall, The Art, Science, and Craft of Great Landscape Photography teaches photographers how to convert their visual peak experiences-moments of extraordinary natural beauty that evoke a sense of wonder and awe-into stunning images that elicit the same awestruck emotion in their viewers. Randall begins by focusing on the art of landscape photography. He describes his three-step process for composing a photograph and shows how good composition is an organic process that begins with rules but ultimately transcends them. Randall then explores the science behind successful landscape photographs, which requires understanding key concepts from geography, optics, vision, and psychology. These concepts include: Understanding how the position of the sun at sunrise and sunset varies throughout the year, which will help you plan when and where to shoot. Understanding optics to predict where rainbows will appear, how polarizers will interact with reflections, and where to find spectacular light. Understanding how to use topographic maps and computerized mapping tools to help you find the most promising shooting locations in the wilderness.Understanding how our visual system analyzes images and the psychology of how we view art....
