Friction Stir Welding of Multilayered Steel

Filesize: 2.66 MB

Reviews

This sort of book is everything and taught me to seeking forward and more. This really is for those who statte there had not been a well worth reading. I found out this pdf from my i and dad advised this book to discover.

(Prof. Griffin Murphy)

FRICTION STIR WELDING OF MULTILAYERED STEEL

DOWNLOAD PDF

AV Akademikerverlag Mrz 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x7 mm. This item is printed on demand - Print on Demand Neuware - Laminated compound materials consisting of brittle and ductile layers are characterized by a combination of high strength and ductility, which is unreachable with conventional, monolithic steels. These material properties are essential for the development of prospective lightweight, fuel-efficient, and crash-safe vehicles. As the modern production process in automotive industries consists of a number of different production steps, including various welding methods, proper weldability has become an indispensable material characteristic. In case of high strength/ductility multilayered steel, however, no successful welding has been reported so far. In this study, therefore, sheets of multilayered steel consisting of 15 alternating layers of ductile SUS301 austenitic and brittle SUS420J2 martensitic stainless steel were welded using the innovative friction stir welding (FSW) process. With that approach, defect free welds with excellent mechanical properties could be produced for the first time. Furthermore, by using various high-end microscopy techniques, a systematic correlation between the microstructure evolution and the mechanical properties was determined on a fundamental level. 124 pp. Englisch.
