# Biotechnology Proteins to PCR

By Burden, David W. / Whitney, Donald B.

Book Condition: New. Publisher/Verlag: Springer, Basel | A Course in Strategies and Lab Techniques | ism (i. e. , Saccharomyces carlsbergensis, or brewer's yeast) and one of its corresponding enzymes. The experiments on this organism and enzyme are not limited to the materials suggested and can be easily adapted to the desired technical level and available budget. Similarly, the subse quent cloning experiments suggest that use of particular vectors and strains, but, as indicated, alternative materials can be used to success fully perform the laboratory exercises. We would like to thank the corporate sponsors of the Biotechnology Training Institute for providing the materials and expertise for the devel opment of our programs, and thus for the materials in this manual. These sponsors include: Barnsteadffhermolyne, Dubuque, IA Beckman Instruments, Somerset, NJ Bio-Rad Laboratories, Hercules, CA Boehringer Mannheim Corporation, Indianapolis, IN Coming Costar Corporation, Cambridge, MA FMC BioProducts, Rockland, ME Kodak Laboratory Products, New Haven, CT Labconco, Kansas City, MO MJ Research, Cambridge, MA Olympus Instruments, Lake Success, NY Pharmacia Biotech, Piscataway, NJ Savant, Inc. , Farmingdale, NY VWR Scientific, Philadelphia, P A We would also like to thank the following individuals for their input, comments, and suggestions: Tom Slyker, Bernie Janoson,...

### Reviews

*This book is indeed gripping and interesting. It really is rally exciting throgh studying period. Its been written in an extremely easy way and is particularly merely soon after i finished reading this book through which in fact changed me, affect the way i think.*

-- ***Aisha Lemke***

*Thorough guide! Its such a very good go through. It is really simplified but surprises in the 50 % from the ebook. You will like how the blogger write this ebook.*
