Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Spring Flora for High Schools The purpose of this Flora is to provide, especially for young people in high schools, a ready means for the identification of the more common and wide spread spring flowering plants. Many species, locally abundant, are omitted. The aim has been to include those of chief ecological importance, and of not too great taxonomic difficulty, in the range as a whole; those which every amateur botanist should know. Besides these, he should, of course, know those of local importance. The intentional omissions on account of taxonomic difficulties are of grasses, sedges, rushes, and of most willows and hawthorns. High school teachers generally feel the need of making their pupils acquainted with as many of the frequent and important plants as opportunity permits. Field or laboratory studies with this end in view are conducted to better advantage in the spring, at the end of the course, than at its beginning, in fall or mid-year. It is believed that this book, with its one comprehensive key and its abundant illustrations, may help in the accomplishment of this end more directly than the complete manuals. The key is almost strictly dichotomous throughout and deals only with such characteristics as are readily observable in spring. There are brief descriptions of 380 familiar plants-which flower before July in the North Central and Eastern States. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
