Excerpt: .manner, discover its constitution and something of the nature of the elements of which it is composed. And so on, through water and earth, the method and matter of Chemistry are developed in a simple style, and entirely free from the ordinary difliculties of nomenclature, theory of combination, etc., etc. These things are briefly discussed at the close, after the young student has become tolerably familiar with most of the elements and their simple compounds. The little book on Physics is written after the same general method, and possesses the parodoxical merit of density without heaviness, so remarkable in the author s large treatise. In short, these two primers are worthy of the attention of all interested in instruction in science. They are delightful books. r. C. M. A Tnxr-Boox or NATURAL PHILOSOPHY. By Ls Rov 0. Ooomzr, A.M. New York: Charles Scribner tit Co. Alex. Forbes, Agent, Cleveland, Ohio. This volume formes the highest book in the series of text books upon this subject by the same author, some of which have been noticed in a previous number of this journal. The book contains many desirable features. The Topics for Review in the beginning will be of value to the pupilas well as the teacher. The introduction of practical problems in Physics whenever possible throughout the book, is a most excellent thing. The methods of treatment of the difierent subjects are, in the main, good and, now and then, a demonstration bears the very...
