Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 Excerpt: .fabric rotted from moisture seeping in trough the tread cuts, and the pliers of fabric separated from each other. A good vulcanizer will always be able to tell, after examination of a tire, if its condition will warrant profitable retreading. And no tire repairman will advise a retread when the carcass is in bad shape, for the carcass is the foundation of the tire, and if this is bad, no retread however well put on, will add sufficient mileage to the tire to warrant the expense involved. But where the tire has had good care and the fabric is uninjured, a retread is a profitable investment. Many thousands of miles are added to tire life in this manner. Before discarding o tires, they should be taken to a competent vulcanizer for examination. Perhaps, a new tread, or a new section can be built into a tire,...
