Formal Modeling and Analysis of Timed Systems

By Krishnendu Chatterjee

Springer-Verlag Gmbh Sep 2010, 2010. Taschenbuch. Book Condition: Ne 239x155x15 mm. Neuware - This volume contains the papers that were presented at the 8th International Conference on Formal Modeling and Analysis of Timed Systems (FORMATS 2010), held September 8-10, 2010, a IST (Institute of Science and Technology) Austria, in Klosterneuburg, Aust The modeling andanalysis oftiming aspects of systems is a keyproblem th has been treated independently in several di erent communities in compu science and related areas. Researchers interested in semantics, veri catio re-
timescheduling,andperformanceanalysisstudymodelssuchastimedautom and timed Petri nets, the digital design community focuses on propagati and switching delays, and designers of embedded controllers need to tak into - count the time requiredby controllersto compute their responses af sampling the environment. Although the timing-related questions in thes separate c- munities have their own speci c nature, there is a growing awareness that there are basic problems that are common to all of them particular, all of these disciplines model and analyze systems whose behavior depends on combinations of logical and timing constraints between occurrences of events. The aim of FORMATS is to promote the study of fundamental and practical aspects of timed systems, and to brir together researchers from...
