Redox Systems Under Nano-Space Control

Filesize: 1 MB

Reviews

Unquestionably, this is actually the very best job by any article writer. I have read and that i am certain that i am going to planning to go through once again once more in the foreseeable future. I realized this publication from my i and dad advised this pdf to find out.

DOWNLOAD PDF

Springer. Hardcover. Book Condition: New. Hardcover. 292 pages. Dimensions: 9.1in. x 6.3in. x 0.6in.3. 1. 1 - Conjugated Materials -conjugated polymers (CPs) and oligomers are materials with an extended -system along the backbone. The materials possess many remarkable prop- ties, including high charge carrier mobilities, electrical conductivities (doped), electrochromism, and electroluminescence 1. These properties have been taken advantage of in exploration of potential applications including in ch- ical sensors, light-emitting devices, and eld-effect transistors. Many efforts have been devoted to synthesizing new conjugated polymers and oligomers in an effort to increase their processibility, optimize the desirable properties, and explore new properties. In Fig. 3. 1 are shown examples of some of the CPs that have been prepared and studied. Coupling -conjugated materials to metal complexes gives hybrid mate- als in which the properties of the metal complex may be coupled to those of the conjugated backbone 2. For example, these materials could be used in energy-harvesting devices such as solar cells or polymer-based light-emitting devices, wherehighchargecarrier mobilities of theconjugatedmaterialmay be combined with either the light-absorbing or emitting metal groups, giving improved device performance 3, 4. In addition to an electronic role, metal complexes may also be used to geometrically orient -conjugated materials in specic three-dimensional arrangments in the solid state. Careful conside- tion of theelectronicinteractionsand excitedstatesisnecessary for thedesign of functional materials of this type. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
